

STAR CASE DESIGNER SERIES BENCH - Detailed Assembly Instructions

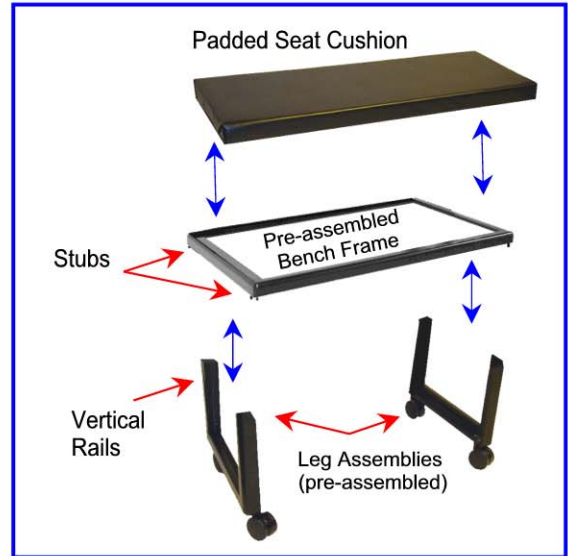

Care must be taken during the assembly process to insure proper fit of all component parts. Use of #2 magnetic tipped Philips head hand screwdriver will help in attaching dog point screws. Please follow these instructions carefully. For safety purposes and ease of assembly, we recommend a large flat area and the help of an assistant.

Step 1

Line up and position all 4 vertical rails on leg assemblies over exposed corner stubs on pre-assembled bench frame. Next, insert dog point screws through pre-drilled holes in rail and into threaded hole of stubs. Repeat for all 4 vertical rails. See Figure 1 below.

Step 2

Place padded seat cushion into position on top of pre-assembled bench frame.

Fully Assembled Designer Series Bench

Your Designers Series Bench is now fully assembled.

Figure 1

Insert dog point screw through pre-drilled hole in rail and into threaded hole of stub and fasten securely. Repeat for both stubs protruding from each cast corner.
