

COMBINATION LOCK INSTRUCTIONS

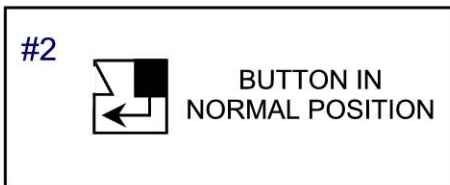

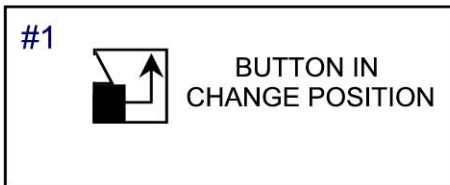

(as used in Star Case heavy-duty twist catch part # 4HARCATCT26CH)

The Combination is factory set at 0-0-0

4HARCATCT26CH
(catch open)

Metal tab on reverse side of lock mechanism

TO SET YOUR COMBINATION:

- (1) On the reverse side of the 3 digit tumbler mechanism, inside the case, you will see a silver metal change button. Move this button to the middle of the lock in such a way that it hooks behind the change notch (see #1 above).
- (2) Select a 3 digit number that you can easily recall.
- (3) Once set, slide the metal button on the reverse side of the lock mechanism back to the normal position (see #2 above).
- (4) To lock your case, rotate one or more of the tumblers. To open the lock, set your combination.

NOTE:

The manufacturer is not responsible for damage resulting from misuse, abusive handling or failure to follow instructions.
