SLIDING RACK RAIL COMPONENT SUPPORTS

A cost-effective rack rail component support system to replace original OEM slide rails or shelf support brackets. Your components slide securely in and out of your rack. This system works well with virtual all EIA rack frames, cabinets and enclosures. This system incorporates a 2-piece set of our universal "L" Series rack rails corresponding in length to your racks rail-to-rail depth with our RFCB curl brackets that provide the front & rear attachment points for the side support rails.

The Slide/Support System is comprised of:

- 4 each RFCB curl brackets
- 20 each 10-32 rack screws & cup washers
- 2 each L Series rack rails in the length ordered

Fixed Rail Component Support System installed in a Star Case Professional Series Rack

Front View of right side of rack

Pair of L series rack rails that mount in this proximity. For 20" depth racks, use L11RU
 25" depth racks, use L14RU
 30" depth racks, use L17RU

Device maximum width that will span from the curl in the RFCB to to curl on the opposite side is 17-1/8". Most components chassis width is 17".

2 standard 10-32 rack screws that attach curl bracket to 10-32 tapped holes in horizontally spanning "L" series rack rail

RFCB - 2 curl brackets attached to front rails and 2 curl brackets attached to rear rails.

2 standard 10-32 rack screws that attach curl bracket to 10-32 tapped holes in vertical rack rails.

Existing vertical rail in any standard 19" wide EIA rack.

For a set (left & right side) of 20" depth Sliding Rack Rail Component Supports - Product I.D. RRSS20 - \$41.15

For a set (left & right side) of 25" depth Sliding Rack Rail Component Supports - Product I.D. RRSS25 - \$47.33

For a set (left & right side) of 30" depth Sliding Rack Rail Component Supports - Product I.D. RRSS30 - \$51.45
